

Letter from the Executive Director

Dear Supporters and Friends,

Any discussion of the foundation's work in our communities must begin with a thank you to our dedicated sponsors, donors and friends. Through your support this year, children received needed healthcare and communities grew stronger. Thank you for the difference you have made in the lives of thousands of children around the world this year.

What started as being the first hand to help one child, has grown to provide \$40M in grants to more than 17,000 children in 107 countries. In 2022, our innovative, school-based health and wellness programs reached more than 35,000 children in 30 states. This annual report and the outcomes shared within are a celebration of all that our donors' generosity makes possible.

Out of our rich history of impactful philanthropy, we continue our mission with a new name in 2023. We will join Oracle Education Foundation, Oracle Volunteering and Oracle Giving under the global umbrella of Oracle Social Impact and continue our charitable work. As Oracle Health Foundation, we remain committed to advancing health equity, and building healthier tomorrows and stronger communities around the world.

On behalf of the children and families we serve, thank you for your support that has built such an incredible foundation of life-changing and life-saving work.

With gratitude,

A handwritten signature in black ink that reads "Shanna Adamic". The signature is fluid and cursive, with a large, stylized 'S' and 'A'.

766 toys donated to partner organizations

Care Kits

6,564 Care Kits and **5,224** feminine hygiene kits distributed in **32** states

Closing the gaps in healthcare for 8-year-old Alenni

Alenni was born with cerebral palsy. She relies on her wheelchair for mobility. For children like her, navigating and interacting with the world brings big challenges. Thanks to a grant from Cerner Charitable Foundation, Alenni is gaining strength, balance, range of motion and coordination with a new custom mobility bicycle. Now, she can explore the world around her while building on the skills she gains in therapy.

Through a second grant, Alenni was able to begin hippotherapy. This horseback therapy is helping improve her sitting balance, lower body range of motion, and so much more. Plus, it is offering her a new avenue for social interaction and helps her endurance and motivation.

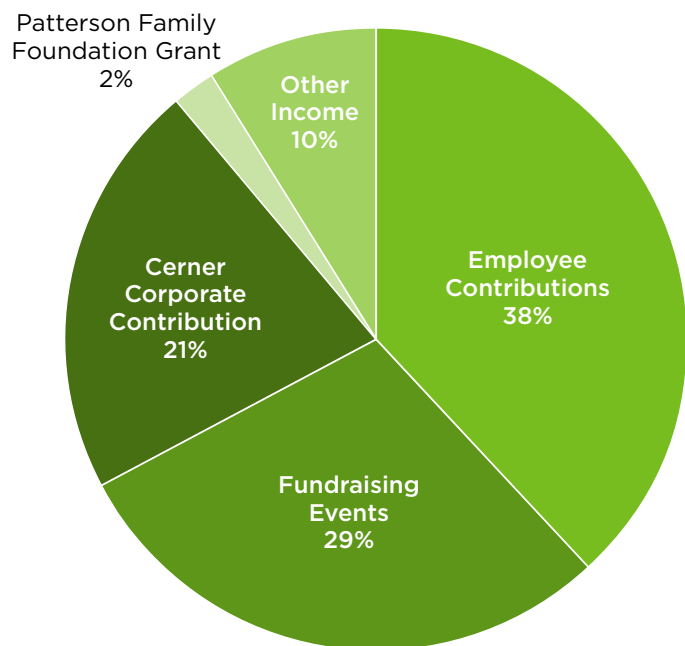

Cerner Charitable Foundation is honored to help children like Alenni receive the healthcare they need. Since 1995, we've provided \$40M in grants to fund essential healthcare like surgeries, equipment, therapies, and family lodging during treatment.

"Both Alenni and I were very happy to know that she was going to receive the grant. Hippotherapy and the mobility bicycle are things that would have been very difficult for us to pay for and have been a great benefit to her in her therapeutic journey."

– Marcela, Alenni's Grandmother

A New Beginning for Healthe Communities

Founded in 2011, the St. Sabina Wellness Center develops creative solutions to meet individuals where they are on their health journey. Through deep connections and a commitment to serving the community, the Center focuses on preventative care, classes that promote better health and nutrition habits, and increased physical activity. Thanks to an establishing grant from the **Patterson Family Foundation**, the St. Sabina Wellness Center is now operating as an independent nonprofit 501c3 organization.
